Steve-

START will follow the warehouse's suggestion (below) for cleaning of future equipment used at the site.

**Subject:** HT-1250 Radio Cleaning

I have attached a before and after pictures of a HT-1250 Radio returned from Red and Bonita. I know Jeff stated that they used Simple Green to try to clean the radios with little results. We tried several methods but the one that worked was a solution of peroxide and Dawn dishwashing detergent (Wendi's Potion). As you can see by the pictures it appears to work very well. We cleaned three radios.

My suggestion is that anything that comes back from Red and Bonita should be cleaned with this solution. Contact me with any questions.

Craig,

The function check on the radios using the Envoy Radio Comm's checked Satisfactorily. We did not have a handheld mike to check against. They are all out in the field.
